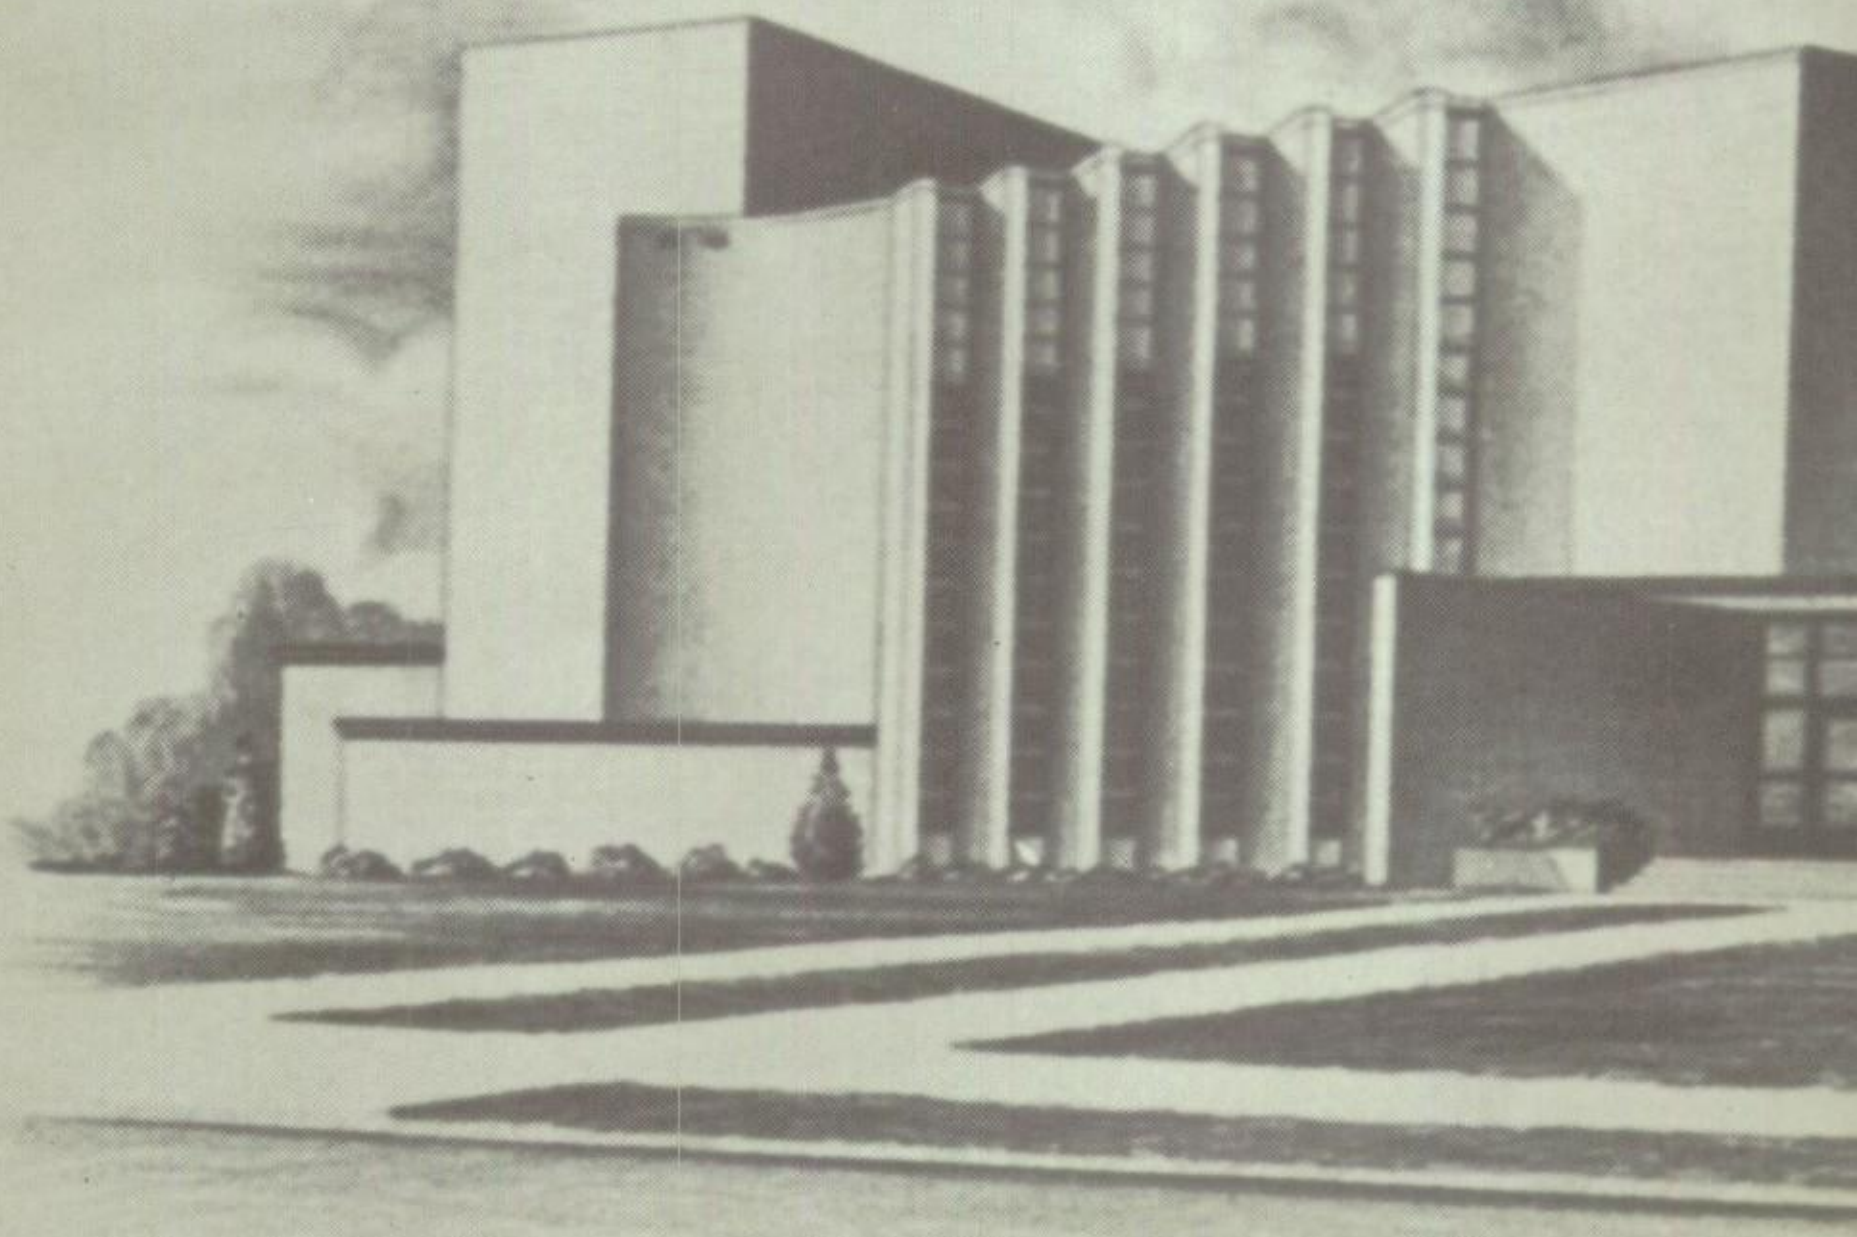
el CONQUISTADOR

1961

Bryan Adams High School
Dallas, Texas



We come in search of knowledge and of truth,
To walk where we by wisdom's light are led:
We bring with us the hopefulness of youth,
Its strength to meet the challenges ahead.

We seek, with friends, companionship and mirth,
The joy of shared responsibility—
We hope to find, through knowing them, the worth
Of insight tempered by maturity.

Reflecting, then, on what we hold most dear,
We understand the nature of our quest
And see within the circle of the year
The meaning of the things we treasure best.

And so these days, the principles they teach,
Become more dear as seasons come and go:
Tomorrow is the goal we strive to reach;

That dream of good toward which we long to grow.

Dedication

To you, Sarah Carmichael, we dedicate *el Conquistador*, partly because of your illustrious service as dean in two Dallas high schools despite your obvious handicaps of youth and pulchritude, but mainly because we love you.

A Tribute to

D. M. Thompson

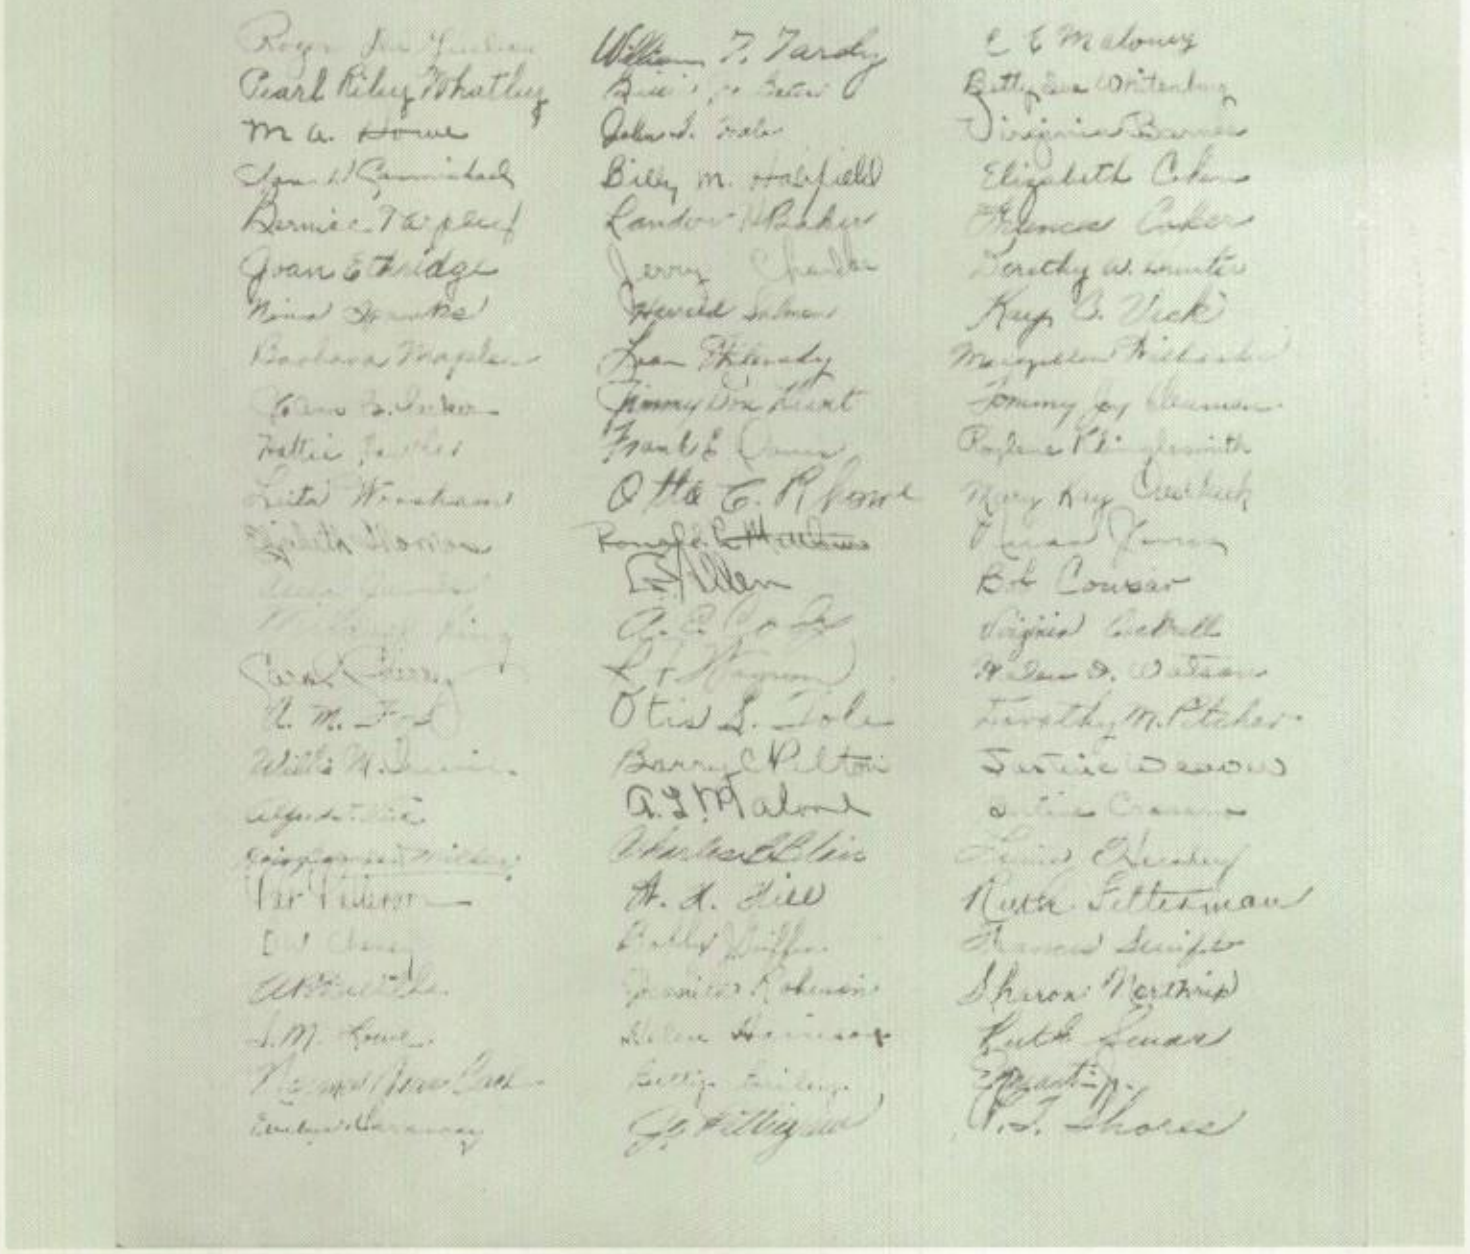
Principal of Bryan Adams High School
Dallas, Texas, June 2, 1960

We, your associates at Bryan Adams High School, do hereby record our expression of esteem, admiration, and affection by reason of:

Your spirited, dynamic, and inspiring leadership;

Your creation of an atmosphere conducive to and resulting in sound scholarship and superiority in the multiple activities of our school; and

Your gentility and warm-blooded humaneness.



Scroll presented to Principal (1957-60) D. M. Thompson on the eve of his resignation to enter the publishing business.

Bryan Adams Takes Top Awards in Dallas Science Fair

Bryan Adams received first and second place awards in the biological sciences division of the sixth annual Dallas Science Fair. Emerson Smith, a junior, took the grand award for his project entitled "Light Sensitivity." The purpose of this project was to discover the effect of light radiation on the sexual maturity in birds. Emerson Smith and teacher-sponsor Samuel Lowe were awarded a trip to the National Science Fair-International held in Kansas City, Missouri on May 10-13, 1961. Emerson was also awarded a K & E Slide Rule.

Taking second for Bryan Adams also in the biological sciences division was James Ash, a sophomore. James' project was entitled "Tissue Culture." James also received a slide rule as well as the position of alternate for a Naval Science Cruise to be held in the fall of 1961.

PRESIDENT HOWARD CHANNELL

VICE-PRESIDENT TOMMY HARPER

SECRETARY CAROL McCLURE

PAOLA BEMPORAD AND SVERKER OLSSON

Paola Bemporad, our charming foreign exchange student from Rome, Italy, says that she "loves" Bryan Adams, except for the homework, of course. Her hobbies include roller skating and ice skating. She enjoys music, but thinks "the low-life is funny!" Paola commented that it is a real pleasure to attend a new school, the very best thing about B.A. is "the kids."

Sverker Olsson, who is from Göteborg, Sweden, says that the best thing about attending school in the United States is not having to go on Saturday! When asked what he didn't like about Bryan Adams, he was very evasive and would only say something about "all the rules." Sverker's hobby is fencing, and he has earned several championships. He likes music, but like Paola, thinks the low-life is "horrible."

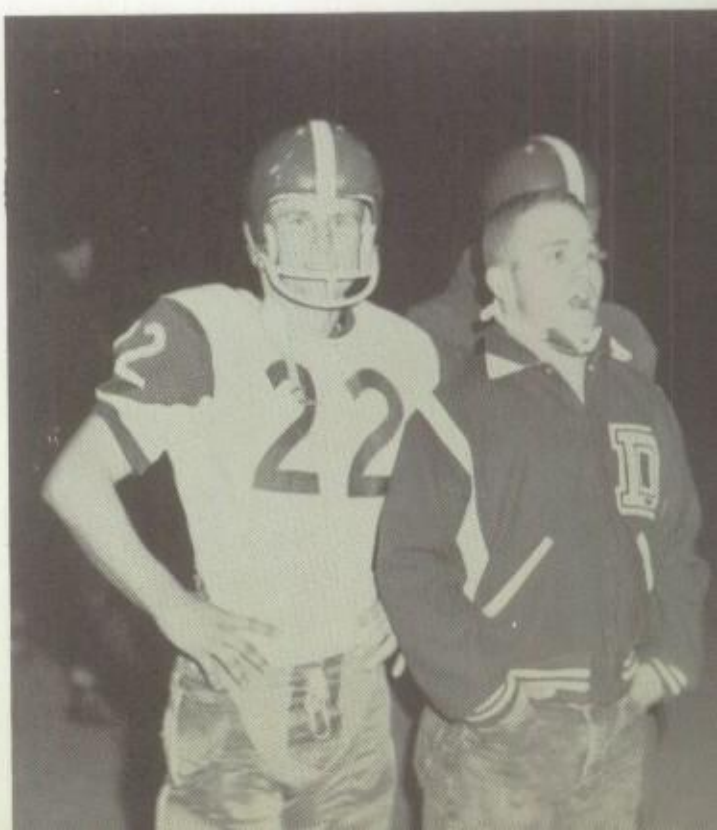
Bryan Adams saw its first rainbow in its fifth try. As rain came down in sheets at Pleasant Grove Field, the Cougars captured their first district victory of the season, drowning the Wildcats 14-0. With 23 seconds remaining in the first half, James Prda skirted right end for 24 yards and the first TD. Prda also got the other B.A. touchdown with a six-yard swim up the middle in the third quarter. Fullback David Colley did an Australian crawl through the 'Cat defenses for the two extra points. Most of the rest of the aquatic show was spent exchanging fumbles.

Sing it, Dick!



Well into the third quarter the score stood Hillcrest 34 and Bryan Adams 0. In less than 24 minutes the score zoomed to Hillcrest 42, Bryan Adams 40. It was truly fantastic!

David Colley led the scoring for our side with 16 points, while James Prda racked up 8, Don Ferguson 6, Ted Eubank 6, Randy Craven 4, and Johnny Murphy 2. It was incredible!

How can a team score 40 points in one half and lose? How can a team leading 34-0 in the third quarter be forced to score eight points to win by 2 points in the final quarter? How can two high school teams score 82 points in 48 minutes? Those questions will be "kicked around" for quite some time.

The purpose of the Bryan Adams Historical Society has been to broaden the members' knowledge of the social sciences, to furnish a more vivid, cultural background of our nation and the world, and to promote specific interests in this field; gaining a finer and fuller appreciation of our own American heritage and of our present day life as well.

The Society's emphasis upon scholarship, particularly in its historical aspect, is exemplified by the fact that all of its members maintain honor roll status, consistently, in their study of history.

"Did you see him today?"

You could pass a man dressed by **London Shop** three or four times a day, and never really be aware of it. You'd know only that you saw an important man—a man who looked like no one else. And there's a moral to the story: Clothes may make the man, but **London Shop** makes the important man.
